PRODUCTION FACTORY OF GAPO ALANCE

The factory of GAPO Alance, the cradle of know-how and technologies. It plays the key role in the global production system with the best quality in mind

Industrial zone for medical devices in Wonju, Gangwon-do, the special district for the health care and medical industries in Korea, where manufacturers of cutting edge medical devices are located!
The factory was built in 2012 and passed the rigorous screening process which required to meet high standards and requirements ie. high quality & unique technologies.

GAPO Alance is ready to lead the global market in the field of air pressure massager

1 We do all the process by our own efforts
R&D, planning, design, production, test,
after sales service, etc

2 Best in Quality
Our production capacity is 10,000 units per
month by our
dedicated quality control team

3 Well Equipped
All of facilities include high tech sewing,
high frequency pressing machine,
cutting machine, etc.

4 We do respond promptly
We have the integral system to
provide prompt feedback at the
requests of buyers and customers

PROCESS AND Q/C

Skillful employees do their work thoroughly and responsibly. And our QC team control the quality of material, production for each process and finished product according to rigorous standards.

CERTIFICATIONS OF PRODUCTION FACTORY

GAPO Alance strives to keep sustainable competitiveness

GMP

Workplace where the quality system is implemented and operated for all of the phases for medical devices from R&D and production to post sales management

Smart Factory

Customized factory where all of the production processes are ICT-integrated into the optimized production system

Venture Enterprise

Technology-intensive SMB that develops the cutting edge new technologies and ideas and challenges the business

INNO-BIZ

Technology innovative SMB that has competitive edge based on leading technologies

Clean Workplace

Workplace where the safety and health control system is implemented

Promising SMB

Workplace with high growth potential

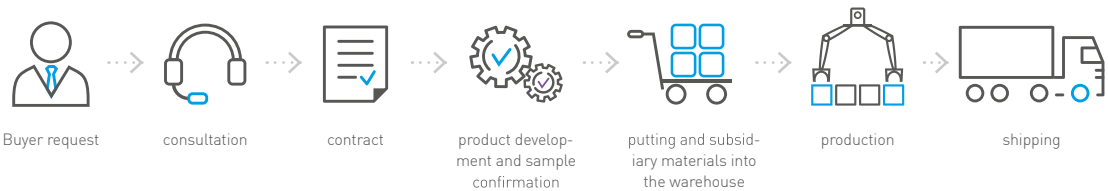

R&D

Our R&D Center focuses on developing various quality and innovative products with differentiated features. We are committed to healthy life throughout the world

- NO.1 Air Pressure Control Technology
- Development of health devices customized for personal, home and medical uses
- Development of sound sleep devices that innovate the quality of life
- Development of IOT based smart health care devices
- Advanced R&D for technologies sensing body information and health information

PROCESS OF OEM

MADE IN KOREA

To achieve the best quality product by high tech and rigorous Q/C
To maximize the trust of consumers & buyers
To minimize the lead time

GAPO ALANCE

GAPO ALANCE AIR STRETCHING MASSAGE MAT

PRODUCT FEATURES

Exclusive

Only one in Korea! Patented product related to spinal stretching (Patent Title: A Stretching Massaging Apparatus for Posture Correction and Muscular Strength Reinforcement of Spine)

First

The first in Korea!
Professional Air Compression Massage device for spinal stretching

Outstanding Effect

Powerful motor and smart technology drive powerful air pressure on the skin and the muscle, it maximizes the softly touched massage effect.

Comfortable

Using the user's weight, it stretches the spine naturally and comfortably with soft but powerful air pressure

Easy to Use

Thanks to the wireless remote control, easy to operate it from a distance even while lying on your back

Friendly

No need to go to the hospital or the fitness center and spend money, you can use it conveniently even while lying on your back.

Strong Recommendation

Necessary item for players who need to relax the entire body stressed from strong exercise, the elderly with weak strength of spinal muscle, office workers who always work sitting down or standing up and students who study in the bad posture for a long time.

PRINCIPLE AND EFFECT

EXCELLENT QUALITY /
HIGH COST EFFECTIVENESS /
REASONABLE PRICE

Principle

- **Mat:** Placing 5 air chambers along the spinal line (at the neck, shoulder, back, waist and pelvis), it stretches the spine and helps to strengthen muscles around it by repeatedly Air-in & Air-out and lifting the spinal line up to approximately 17 cm by using the air pressure
- **Cuff:** Different per body part ie. for leg, waist, pelvis and arm, and repeatedly inflating and deflating with air pump, it provides the healing massage effect on the applied area.

Effect

- **Mat**
 - Spinal stretching keeps the main skeleton and balances the body to be in good shape
 - Simultaneous effects including stressed muscle relaxation, flexibility increase, strengthened muscle and joint motion range expansion and maintenance
 - Helps posture correction by correcting the body usually bent, stiff and twisted.
- **Cuff**
 - Helps to the blood circulation around the applied area as well as the entire body and provides the healing massage effect around the applied area using soft and powerful air pressure
